**ENGINEER'S OPINION OF CONSTRUCTION COSTS:****\$986,000****NOTES:**

1. Unit prices used in developing this EOPC were based on cost estimate data from recent CDOT Cost Data Book(s) compiled by the CDOT Engineering and Market Analysis Unit and SGM's database of similar projects.
2. Unit prices and total costs are based on Present Value dollars. Adjustments should be made for years beyond the present year if actual construction occurs in a future year.
3. This EOPC was prepared on the basis of SGM's experience and qualifications and represents SGM's judgment as a professional generally familiar with the industry. However, since SGM has no control over the cost of labor, materials, equipment, or services furnished by others, over contractor's methods of determining prices, or over competitive bidding or market conditions, SGM cannot and does not guarantee that proposals, bids, or actual construction cost will not vary from SGM's EOPC.
